## **1. PARTICIPATION IN PARTNER PROGRAM**

### **1.1. Qualified Participants**

Any person or legal entity registered as an IT company can partake in the Partner Program, including web studios, web integrators, software consultants, and IT-professionals who wish to build intranet solutions for their clients using Bitrix24 Products.

### **1.2. Becoming a Partner**

In order to become a Partner, it is required to submit an [Application](#). By submitting an Application, a company's representative confirms that the information in the Application is correct and accurate and agrees to the Bitrix24 [Privacy Policy](#) and accepts the [Distribution Agreement](#) on behalf of the applying company. Providing false information in the Application is a violation of the Partner Program's terms of participation.

Bitrix24 typically reviews an Application within 1-7 business days and decides whether the information provided in the Application is sufficient to accept a participant in the Partner Program. Additional information can be requested by Bitrix24 from the applicant using contact details provided by the applicant in the Application. Failure to contact the applicant will result in the Applications' denial. Following review, the result of Bitrix24's review is sent to the applicant's e-mail address.

### **1.3. Acceptance to Partner Program**

Upon acceptance, a Partner will receive an e-mail confirmation with details about their Status in the Partner Program and account details to access the Partner Dashboard. From this moment on, a Partner shall be deemed to have entered into the Bitrix24 Distribution Agreement. If required, a physical signed copy of the Partner Agreement can be provided to a Partner upon request.

### **1.5. Partner Program Termination**

The Partner Program is terminated contemporaneously with the termination of the [Distribution Agreement](#). Upon termination, a Partner loses the right to all benefits and to access to Partner Dashboard.

### **1.6. Using Bitrix24 Trademark and Copyrights**

A Partner has the right to use Bitrix24 Trademarks in accordance with the [Guidelines for Using Bitrix24 Trademarks and Copyrights](#). Any use of Bitrix24 Trademarks that is not described in the guideline needs to be submitted to Bitrix24 for approval before publication.

## **2.2. Partner Status Validity**

Silver and Gold Partner Status is reviewed every year for each Partner. If a Partner reaches the minimal yearly sales target required by their Status (\$/€5,000/year for Silver Partners and \$/€15,000/year for Gold Partners), their current Partner Status is retained for another year. Otherwise, their current Partner Status is downgraded. The Bronze Partner Status never expires. A Partner Account can be suspended without prior notice due to zero activity during the year.

## **3. CLIENT TRACKING**

Partners can track all clients that have purchased Bitrix24 Products from them or signed up from a link with their Partner Referral ID. All cloud account sign-ups are available in the Sign-Ups List section on the Partner Dashboard at <https://Partners.bitrix24.com/private/signups/>. All On-Premise licenses sold by a Partner are available at <https://Partners.bitrix24.com/private/on-premise/index.php>.

### **3.1. Referral Link**

Partners can integrate a unique Bitrix24 Partner referrer into web forms and links placed on the Partner's website to track Bitrix24 Cloud sign-ups. All sign-ups are available in the Sign-Ups List section on the Partner Dashboard at <https://Partners.bitrix24.com/private/signups/>.

### **3.2. Cloud Sign-Ups List**

The Bitrix24 Cloud Sign-Ups List contains:

- Client accounts who have an activate subscription purchased from a Partner;
- Free Bitrix24 accounts for clients who signed up via a Partner's referrer link; and
- Accounts linked to a Partner manually by client request to Bitrix24.

### **3.3. Rules for Using Linked Client's Contact Information**

Because Bitrix24 Cloud clients may not expect to be contacted by Partner, it is strongly recommended that an unobtrusive form of communication be used. Partners are not allowed to use Bitrix24 Cloud Sign-Up contact details for sending bulk newsletters or any unwanted advertising unrelated to Bitrix24 Products and services. Partners are not allowed to provide Bitrix24 Cloud Sign-Up contact details or any other information regarding Bitrix24 Cloud or On-Premise clients to third parties.

## **4. LEADS DISTRIBUTION PROGRAM**

Bitrix24 distributes incoming queries from potential clients via e-mail or other communication channels between Silver and Gold Bitrix24 Partners, depending on what territory a potential client is located. Implementation Requests received through special web forms are sent to Partners via the Bitrix24 Implementation Request App.

### **4.1. Bitrix24 Implementation Request App**

Approved Bitrix24 Partners who complete the [Bitrix Partner Program Tutorial](#) can install the Bitrix24 Implementation Request App (the App) from the Marketplace and receive implementation request from potential Bitrix24 clients. A Partner can receive implementation requests from up to 4 locations via the App (from the country Partner is currently registered in, and from 3 additional locations). Implementation requests may include:

- Purchase requests;
- Cloud subscriptions;
- License keys for On-Premise editions;
- Renewal or upgrade coupons, etc.;
- Request for value added services;
- Installation or hosting services;
- Product customization;
- Localization services (into one or several languages);
- Training (online or on client's premises);
- Workflow automation;
- Telephony / VoIP set-up;
- Integration of a 3rd-party solution; and
- Mobile, Desktop or Marketplace app development, etc.

Once a Partner receives a request that they would like to take on, it can be reserved to get access to the client's contact details. Reserved requests can be managed inside the Partner's CRM, where a Partner will be able to track all its activities and its CRM agents. A single request can be accepted (or reserved) by up to 5 Partners. That means that a client can receive up to 5 offers from 5 different Partners.

The App uses the Lost/Won ratio (conversion) which will affect Partner's rating. As long as a Partner keeps converting the reserved requests with the Won status, their rating will be higher, which means more Requests will be unlocked through the App. A detailed Bitrix24 Implementation Request App guide can be downloaded at <https://Partnerportal.bitrix24.com/~nEjQw>.

## **5. PARTNER DASHBOARD**

The Partner Dashboard allows Partners to update company details, add a logo, company description, update contact details, etc. The Partner Dashboard also contains information about a Partner's Status in the Program as well as links to a Partner's store, marketing materials for Partners, the Helpdesk and FAQ articles.

### **5.1. Access to Partner Dashboard**

Then, the main user should add and save the new user's login at the Your Team section of the Partner Profile in the Partner Dashboard: <https://Partners.bitrix24.com/private/>.

## **6. PARTNER'S FREE PRODUCT COPIES (NFR)**
